It will be very easy to see if both your partner and your opponents are logged in on Pandanet (and chose the same room).

NEXT: click "Home"on the menu (2)

Setup the PairGo game – "Accept"

Let the game begins!

Player on the move is "yellow" and there is a white stone to the right of the name.

Good manners

- Unlike in a "live" Pair Go game, you cannot miss the turn – no penalties like "give the opponent three stones because the rotation error".
- Like in a "live" Pair Go game, you should not consult your partner, the only exception being typing "Can we resign the game?" in the chat.
