If the arbiters find it clear that a player has cheated, all of the player's games will be forfeited and the player disqualified immediately. These rules will be enforced very strictly.

Important !

All players 1-dan and stronger and also players who are in the top group or play with a player from the top group are obliged to use the webcam during the game at least for off-line video recording (it is sufficient to use a telephone for recording). The camera must be positioned so that the computer screen with the game is visible, as well as the mouse and the player's face from the side. Other players are highly advised to have a video as well. In case of suspicion, this is direct evidence of innocence.

Withdrawal from the tournament is possible no later than one hour before the scheduled start of the round. If you arrive at the game **more than 30 minutes** later after the scheduled start of the round, you will lose by

default. In case of technical problems, it is necessary to **contact the referee immediately.**
